Case History

Customer: Detroit Metro Airport

Project: Detroit Metro Airport Expansion / ILS equipment foundations and Runway Lighting

General Contractor: Waldan General Contracting

Location: Detroit, MI

Engineer: Ken Hart

Chance Contractor: AnchorTech Foundation Systems, Inc.

Project Description: The engineer wanted a foundation that would have little or no movement vertically or laterally. The Instrument landing equipment was very sensitive to movement. AnchorTech installed approximately 250 piers in 3 days. Speed and accurate placement was critical on this job.

Material Used: Chance (Hollow Shaft) 2-7/8" Instant Foundation Piers with an average depth of 8 feet. The helical configuration was single 12". The project was completed in 3 days.
